III. THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and Athletes must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.

A full copy of this Code can be obtained from the Fédération Equestre Internationale, HM King Hussein I Building, Chemin de la Joliette 8, 1006 Lausanne, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English. The Code is also available on the FEI's website: www.fei.org.

10. FEI WORLD CUP™ COMPETITION – ARAB LEAGUE

- The FEI World Cup™ Competition is open to the top 30 placed Athletes in the qualifying Competition, provided they were not eliminated or retired.
- Only one Horse per Athlete is allowed in this Competition.
- If the home country does not have an Athlete among the top 30 qualified Athletes, the highest placed home Athlete in the qualifying Competition may compete in the FEI World Cup™ Competition as an extra Athlete bringing the starting field to 31. If there is a home Athlete among the top 30, the number of Athletes in this Competition is limited to 30.
- If non Arab League Athletes have participated in the qualifying Competition the number of Athletes eligible for participation in the FEI World Cup™ Competition will be increased until the 30th Arab League Athlete is qualified at all times.
- If one or more qualified Athlete(s) decide(s) not to participate, the next best placed Athlete according to the result of the qualifying Competition may take his place, providing that the Athlete concerned has not been eliminated or has retired in the qualifying Competition. Such replacements are allowed until two hours before the start of the FEI World Cup™ Competition.
- If the best placed Athlete, according to the results of the qualifying Competition, is a non Arab League Athlete, both this Athlete and the next best placed Arab League Athlete will be eligible for participation in the FEI World Cup™ Competition.
- Athletes qualified for this Competition can participate with the Horse of their choice.
- The FEI World Cup™ Competition is run according to the following formula: Over a two round Competition with the first round not against the clock and the second round against the clock (Art. 273.3.3.2). The top 25% (including FEI World Cup™ Athletes and non-World Cup Athletes) of Athletes on points from the first round, in any case all clear rounds, qualify for the second round based on their penalties in the first round. Those not qualified for the second round are placed according to their penalties in the first round. Classification will be according to Art.273.4.3.
- If the FEI World Cup™ Competition takes place on the 2nd day of a 3 day Event, the

Athletes will be allowed to enter the Grand Prix or a smaller Competition on day 3 with the FEI World Cup™ Horse.

- If the FEI World Cup™ Competition is the Grand Prix on day 3, day 1 should include a Competition with obstacles of approximately 1.35 m in height.
- Each FEI World Cup™ Competition is run at a minimum speed of 350m/min. The height of the obstacles may be anything between 1.40m and 1.60m. The spread must be proportional to the height and not more than 2m. If there is a water jump, it cannot be wider than 4m outdoors.
- The starting order in the first round of the FEI World Cup™ Competition is established according to a draw.

Horses are only to compete once a day.

IMPORTANT

*: Maximum Number of starters per competition: 100.

If more than 100 starters are declared, the OC must split the class and provide the equivalent amount of prize money for the additional Competition. OCs may apply either of the following methods for splitting the Competition:

The competition is split into two groups before it starts. There may be a different number of starters in each group. There may be athletes with multiple horses in each group but all horses of any one athlete must be in the same group.

OR

The competition is run as one single competition and split afterward into two groups and the classification established as follows: the athlete with the best score is the winner of the first group, the athlete with the second best score is the winner of the second group and so on until prizes have been allocated to 25% of the total number of starters. *NB: In this case separate results must be sent to the FEI for each of the two groups, e.g. results for Competition 1a and for Competition 1b.*

In both cases above each group must offer the same amount of prize money as indicated for the original Competition. For the avoidance of doubt, it is the number of declared starters in the Competition, not the actual number of starters, that determines whether the Competition must be split.

Prize Money Distribution:

Please specify under each Competition which of the two charts you will be using for the distribution of the Prize Money (Chart 1 or Chart 2, see additional information).

5. INJURY SURVEILLANCE

2015 FEI Veterinary Regulations, articles 1036, 1039 and 1040:

Horses participating in FEI Events are subject to injury surveillance protocols; and in the event of fatality, a post mortem examination.

6. TRANSPORT OF HORSES

Horses must be fit to travel and be transported in suitable vehicles f. Any government requirements for disease testing and control must be requested well in advance, to ensure that the horse is in compliance by the time of arrival at the border of the country where the Event

is taking place. athletes, or their representatives, have the responsibility to comply with national legislation in both their country of origin and the host nation of the Event. Where necessary athletes must contact local government authorities or veterinary advisors for information regarding animal health requirements and transport legislation. Within the European Union (EU), this includes EU Council Regulation (EC) No 1/2005 concerning the protection of animals during transport within the Member States of the EU.

7. VENUE ARRIVAL INFORMATION & FITNESS TO COMPETE

7.1. PASSPORTS. FEI General Regulations Article 137

For all issues relating to FEI Horse Passports/FEI Recognition Cards please contact your National Federation.

All Horses competing at FEI Events must be registered with the FEI.

FEI Passports or FEI Recognition Cards (for those Horses with a national passport approved by the FEI) are compulsory for FEI Events.

Athletes who do not present a Horse's Passport and/or Recognition Card, or one that is not correctly validated or fail to meet other passport requirements will be **subject to Sanctions in accordance with Annex II of the FEI Veterinary Regulations** and may not be allowed to compete.

NB for Horses permanently resident in a Member State of the European Union: all Horses must have a national EU passport in compliance with EU Regulations to which a FEI Recognition card is applied. The exception to this being Horses in possession of an FEI passport which has been continually revalidated without interruption.

7.2. VACCINATIONS - EQUINE INFLUENZA. FEI Veterinary Regulations Article 1028

Horses competing at FEI Events must comply with the requirements for Equine Influenza vaccination in accordance with the Veterinary Regulations and as summarised below.

VACCINATION	PROTOCOL	ELIGIBILITY TO ENTER VENUE

8.2. ELECTIVE TESTING. FEI VETERINARY REGULATIONS ARTICLES 1056

Elective Testing may be carried out prior to an Event to check for the presence of prohibited substances. Please refer to www.FEI.org/veterinary for information and details.

XII. HUMAN ANTI-DOPING

Athletes can be tested at any FEI Event, by the FEI or by other Anti-Doping Organisations with Testing jurisdiction. Organisers will have the responsibility to provide facilities and staff/volunteers to facilitate such Testing if requested by the FEI as outlined in article 22.3 of the FEIs' Anti-doping Rules for Human Athletes (ADRHA).

The ADRHA rules are published on the FEI's website at <http://www.fei.org/content/anti-doping-rules>.

XIII. ADDITIONAL INFORMATION

1. INSURANCES AND NATIONAL REQUIREMENTS

Equestrian sports involve inherent dangerous risks. To the greatest extent permitted by law, the FEI and the FEI Event Organiser shall NOT be liable for any damages relating to loss of property or injury of any kind to Athletes, Owners, Support Personnel or Horses at or in connection with an FEI Event and the FEI expressly excludes all such liability.

1.1. ATHLETES, OWNERS AND SUPPORT PERSONNEL

1.1.1. Personal Accident and Health Insurance

It is your responsibility as an Athlete/Owner/ Support Personnel to ensure that you have adequate personal accident insurance in place to cover your participation at FEI Events and in particular to insure against any personal injury or medical expenses arising from an accident, injury or illness which may occur at a FEI Event.

You should check with your National Federation to confirm if your National Federation's insurance policy (if any) covers personal accidents and/or illnesses which may occur when you are attending at/participating in FEI Events.

If your National Federation does not have a personal accident/health insurance policy or if the National Federation's insurance policy does not cover personal accident or health claims, then you should obtain your own personal accident and health insurance policy to cover your attendance/participation at FEI Events.

1.1.2. Personal Property Insurance

You should also ensure that you are insured against property loss, theft or damage which may occur at an FEI Event.

Again, the advice is to check with your National Federation to confirm if they have an insurance policy in place which would cover you in case of such property loss, theft or damage. If not, then you should obtain your own personal property insurance to cover such situations.

1.2. ATHLETES AND OWNERS

1.2.1. Third Party Liability Insurance

As an Athlete/Owner you are personally responsible for damages to third parties caused by you, your employees, Support Personnel, your agents or your Horses. You are, therefore, strongly advised to take out third-party liability insurance providing full coverage in relation to FEI Events at home and abroad, and to keep the policy up to date.

The FEI and the Organiser will NOT be responsible for any damage caused to third parties by you, your employees, Support Personnel, your agents or your Horses.

1.2.2. Horse Insurance

As an Owner you should ensure that your Horses are adequately insured against any injuries or illnesses they may sustain while participating at a FEI Event.

Square for OC's to include reference to National Laws when necessary

2. PROTESTS/APPEALS

To be valid, all Protests and Appeals must be made in writing and accompanied by a deposit of CHF 150.- or equivalent.

Protest and appeal forms are available on the FEI website.

3. SCHOOLING DURING COMPETITIONS

Riders wishing to school during speed competitions (Table A and Table C) must inform the OC before these competitions begin. These riders will start first in these competitions.

4. STEWARDING

- If an athlete is uncertain as to whether the boots he/she intends to use during an event are allowed, he/she or his/her representative should show the boots to the Chief Steward for his/her opinion before the boots are used in training or in competition.
- In addition, athletes are to be made aware that hind boots must be removed and placed again on the horse's legs in the presence of a Steward while in the warm-up arena prior to entering the competition arena for certain competitions. (If bandages are used in place of boots, athletes are not required to remove the bandages in the warm-up arena.) This procedure is compulsory for competitions for which boot and bandage control is mandatory, that is the Nations Cup, Grand Prix, and the competition with the highest prize money, and is at the discretion of the Chief Steward for other competitions.
- As an alternative to carrying out this procedure at the time designated by the Steward an athlete may ask his/her groom to take the boots to the in-gate and place them on the horse's legs in front of the Steward prior to the combination entering the arena.
- The Steward has the authority to intervene if a boot is deemed excessively tight by instructing that the boot be removed and put on again correctly. *[Stewards are to note that it is normal for a horse's gait to be somewhat affected immediately after boots have been removed and re-placed.]* If an athlete or his/her groom refuses to remove and re-place the boot(s) when instructed to do so by the Steward, a Yellow Warning Card will be issued to the athlete in question.
- If it is deemed impossible or unsafe to remove the hind boots in the warm-up arena prior to the combination entering the competition arena, due to an extremely excited or nervous horse, the boots of the horse in question are to be removed by the athlete/groom following the athlete's round upon leaving the arena and inspected by the Steward. This inspection may be carried out during the boot and bandage control if the boot and bandage control is carried out for the competition in question.
- This procedure does not replace boot and bandage control after completion of an athlete's round for competitions for which boot and bandage control is mandatory (refer to JRs Art. 244.1).

5. DISPUTES

In the event of any discussion concerning the interpretation of the schedule (in translated languages), the English version will be decisive.

6. MODIFICATION TO SCHEDULE

In exceptional circumstances, together with the approval of Chefs d'Equipe and Ground Jury the OC reserves the right to modify the schedule in order to clarify any matter or matters arising from an

omission or due to unforeseen circumstances. Unforeseen circumstances do not include situations arising as a result of the OC altering the approved Schedule without FEI's authorisation.

Any such changes must be notified to all competitors and officials as soon as possible and they must be reported to the FEI Secretary General by the Foreign Judge.

updated 17 October 2011

In case of a tie for the 12th place in a competition with 12 to 48 starters, the prize money foreseen for the 12th place will be divided equally among the athletes concerned.

For Competitions run in two rounds with more than 12 starters in 2nd round:

OCs that indicate in the schedule that a specific number (that is more than 12) of athletes will return for the second round will be permitted to distribute the prize money for that competition among all the athletes taking part in the second round, even if the second round is followed by a jump-off in case of a tie on penalties for first place after the second round.

III. HEALTH INFORMATION

I, the undersigned, certify that the Horse described above meets the following requirements:

- a)** Has been examined today (date), being within 24 hours of export, and shows no clinical signs of infectious and contagious disease, and is certified free from external parasites. The horse is fit to travel today.
- b)** It is not intended for slaughter under a national programme of infectious or contagious disease eradication.
- c)** (i) the said animal does not come from the territory or part of the territory(1) of a Member State which is the subject of restrictions for reasons of African Horse Sickness; and
(ii) Either (a) the said animal is not vaccinated against African Horse Sickness; (5)

Or (b) the said animal was vaccinated against African Horse Sickness on (date)(5)

d) It does not come from a holding which was subject to prohibition for animal health reasons, nor had contact with equidae from a holding which was subject to prohibition for animal health reasons.

i) During six months in the case of equidae suspected of having contracted Dourine, beginning on the date of the last actual or possible contact with a sick animal. However, in the case of a stallion, the prohibition should apply until the animal is castrated.

ii) During six months in the case of Glanders or Equine Encephalomyelitis, beginning on the day on which the equidae suffering from the disease in question are slaughtered.

iii) In the case of Infectious Anaemia, until the date on which, the infected animals having been slaughtered, the remaining animals have shown a negative reaction to two Coggins Tests carried out 3 months apart.

iv) During six months from the last case in the case of Vesicular Stomatitis.

v) During one month from the last case, in the case of Rabies.

vi) During 15 days from the last recorded case, in the case of Anthrax.

If all the animals of species susceptible to the disease located on the holding have been slaughtered and the premises disinfected, the period of prohibition shall be 30 days, beginning on the day on which the animals were destroyed and the premises disinfected, except in the case of Anthrax, where the period of prohibition is 15 days.

e) To the best of my knowledge it has been resident on premises under veterinary supervision for the 15 days immediately prior to export and, during that time, it has not been in contact with equidae suffering from an Infectious or Contagious disease.

f) As far as can be ascertained, and based on a written declaration by the owner/agent, it has been resident in the European Union, or the UAE, for at least the 30 days immediately prior to export.

g) It was subjected to the following blood tests carried out on blood samples collected on (date), being within 30 days of export, and if imported into the EU from other than the UAE, at least 14 days after the date of entry, with negative results,

i A Complement Fixation Test for Dourine at a dilution of 1 in 10 (4)

ii A Complement Fixation Test for Glanders at a dilution of 1 in 10 (4)

h) On(date) being within 30 days of export, and, if imported into the EU, at least 14 days after the date of entry, blood samples were taken from the said animal and were submitted to testing by an Agar Gel Immunodiffusion (Coggins) Test for Equine Infectious Anaemia, with a negative result (4).

i) For entire males older than 180 days*

Either (i) On(date) being within 30 days of export, and, if imported into the E.U., at least 14 days after the date of entry, blood samples were taken from the said animal and sent to an E.U. Laboratory approved for export testing by the Competent Authority of a Member State, where they were submitted to testing by a Virus Neutralisation Test for Equine Viral Arteritis with negative results, at a dilution of 1 in 4 (5).

Or (ii) On(date) being within 30 days of export, and, if imported into the E.U., at least 14 days after the date of entry, an aliquot of its entire semen was taken and submitted to an E.U. Laboratory approved for export testing by the Competent Authority of a Member State where it was tested by Virus Isolation Tests for Equine Viral Arteritis (at least 3 passages) with negative results (5).

Or (iii) it was vaccinated on (date) against Equine Viral Arteritis, under Official Veterinary Supervision with a vaccine approved by the Competent Authority, according to the following programme for initial vaccination and, where appropriate, has since been re-vaccinated at regular intervals, as recommended by the vaccine manufacturers (3) (5).

Programmes for initial vaccination against Equine Viral Arteritis:

Instruction: - Cross out vaccination programmes that do not apply to the animal described above.
- Verify supporting certification on testing before vaccination, vaccination and re-vaccination.

*a) Vaccination was carried out on the day a blood sample was taken that subsequently proved negative in a virus neutralization test for Equine Viral Arteritis at a dilution of 1 in 4: or, (5)

*b) Vaccination was carried out during a period of isolation of not more than 15 days under official veterinary supervision, commencing on the day a blood sample was taken that was tested during that time with negative result in a Virus Neutralization test for Equine Viral Arteritis at a dilution of 1 in 4: or, (5)

*c) Vaccination was carried out when the animal was at an age of 180 to 270 days, during a period of isolation under official veterinary supervision. During the isolation period two blood samples taken at least 10 days apart proved a stable or declining antibody titre in a virus neutralization test for Equine Viral Arteritis: (5)

j) During the 60 days immediately prior to export, but not within 14 days of export, the horse received;

Either (i) at least two primary vaccinations against Equine Influenza, given between 21 and 42 days apart (3) (6). Dates of vaccinations 1.....2.....

Or (ii) it received a booster vaccination against equine influenza which was given within 12 months of a certified primary course, or within 12 months of a certified booster vaccination where it, and any other previous booster vaccinations, had been administered annually within a regular 12 month period since the primary course (6).

Date of booster vaccination

k) It shows no clinical signs of Contagious Equine Metritis (CEM) and, as far as can be determined, during the last 60 days, it has not been on any holding where there has been any suspicion of CEM during that time, nor has it had contact indirectly, or directly through coitus, with equidae infected or suspected of being infected with CEM:

l) I have a written declaration, signed by the owner of the representative, stating that:

(i) The horse will be sent from the premises of origin to the Airport of dispatch without coming into contact with other equine animals which do not meet UAE Permanent Import Conditions as specified in this certificate, in a vehicle cleansed and disinfected in advance with a disinfectant officially recognised in the country of dispatch, AND

EITHER

(ii) The horse will be sent directly from the premises of origin to the Airport of dispatch, or, (5)

OR

(iii) The horse will not be sent directly from the premises of origin to the Airport of dispatch but it will be unloaded at the following premises, en route, and Supplementary Certification in the form specified at Annex B to UAE Import Conditions for the permanent import of horses from the EU, will be provided for each premises (5) (2)

1. Part of territory in accordance with Article 13 (2) of Council Directive 90/426/EEC.
2. The approved Veterinary Surgeon(s) supervising the isolation(s) must provide certification equivalent to that attached at Annex B to the U.A.E. Import Conditions for the import of horses from the E.U.
3. In case of registered equidae vaccinations have to be entered in the identification document (passport).
4. All laboratory tests must be carried out at an E.U. Laboratory, approved for export testing by the Competent Authority of the Member State of export.
5. Delete as appropriate.

For UAE import purposes a primary course of vaccinations will be considered to consist of at least two doses of the same vaccine given 21 – 42 days apart. Consideration will be given at intervals outside these limits but ONLY if it can be shown that they are in line with the vaccine manufacturer's recommendations.

DECEMBER 2002

5. ANNEX 5

UNITED ARAB EMIRATES
MINISTRY OF ENVIRONMENT & WATER

الإمارات العربية المتحدة
وزارة البيئة والمياه

CONDITIONS FOR THE TEMPORARY IMPORTATION AND RETURN OF REGISTERED HORSES INTO THE
UNITED ARAB EMIRATES FROM SAUDI ARABIA, QATAR, OMAN, BAHRAIN, MOROCCO, TUNISIA AND THE
EUROPEAN UNION TO TAKE PART IN INTERNATIONAL SHOWJUMPING COMPETITIONS 2016

IMPORT

1. An Import Permit must be obtained from the United Arab Emirates (UAE) Ministry of Environment & Water, (MEOW) **before** shipment leaves the exporting country.

NOTE: ALL APPLICATIONS MUST BE MADE THROUGH THE DESIGNATED IMPORT AGENT APPOINTED BY THE ORGANISING COMMITTEE OF THE FIRST EVENT THE HORSES ARE ENTERED FOR.

2. **In order to obtain a permit:**

- a) The horse must be subjected to the following blood tests with negative results.
The tests to be carried out on blood samples collected within **90** days of export:

Coggins Test for Equine Infectious Anaemia.
Glanders

The above tests to be carried out in a laboratory approved for that purpose by the European Union or

The Central Veterinary Research Laboratory Dubai. P.O.Box 597, Dubai, U.A.E. Tel: 971 4 **3375165**, Fax: 971 4 **3368638**.

Note: CVRL, Dubai will not release results until payment has been made.

Details of payment and advice on submission of samples is available from CVRL.

- b) Horses must also be fully vaccinated against Equine Influenza - see paragraph III k of the model certificates at Annex 1, 2 and 3
- c) Horses must also meet the pre-export residency and veterinary supervision conditions at paragraph III(d) of the Model Health Certificates.
- d) A Ministry of Environment & Water Consignment Fee must be paid (see under Fees below). **Payment** must be brought to the ERA Veterinary Quarantine Department at Nad Al Sheba (the fee can be paid at the Veterinary Quarantine Department or, alternatively at other MOEW payment points - details may be obtained from the Veterinary Department – 04 336 1771

A fully completed Import Permit Application Form, together with the Laboratory Test Results, copies of the horses' Registration papers and Equine Influenza vaccination records, and **the original** MEW consignment fee receipt must be submitted **BY THE DESIGNATED AGENT** to the ERA Veterinary Quarantine Department, Dubai World Cup Quarantine, Nad Al Sheba, Dubai, by hand or by email (Julie.Hunt@emiratesracing.com) or on Fax: (00 971) 4 **381 3852**, at least 5 working days prior to the intended date of entry.

No import permits will be issued for entry prior to the date the Organising Committee has notified to the ERA for acceptances. Any information submitted less than 3 working days before the intended entry date will be charged a late fee (300 AED per horse). All reasonable effort will be made to complete late applications on time but this cannot be guaranteed as all submitted information must be thoroughly checked before the ERA can process the

application and the Ministry can sign the Import Permit.

Applications and all relevant information must be submitted by consignment (groups of horses traveling together in the same vehicle/aircraft.) **All horses in a consignment must travel together and the horse box/flight number must be notified to the ERA for the issuance of the import permit.** A horse that does not travel with the consignment specified in the import permit will need a new import permit (100 AED re-issue fee per horse). **No horse should leave the country of origin until an import permit has been issued.**

Note: Import permits cannot be issued for more horses than the OC has barn space for.

*If all tests and paperwork have been completed satisfactorily an Import Permit will be issued.
(NB: The horse must be properly registered.)*

3. When the horses are sent to the UAE they must be accompanied by an official Health Certificate issued by a salaried Veterinary Officer of the National Government Veterinary Service of the country of export, which must be in the form of the relevant model health certificate at Annex 1 (GCC), Annex 2 (North Africa) or Annex 3 (EU) to these conditions.

The certificate must be fully completed, including deletion of those parts that do not apply and must include all dates of tests and vaccinations. A full description of the horse must be provided either by completion of the silhouette or by attaching a passport issued by a recognised national body.

Please read the certificate carefully. All relevant parts must be complied with.

**HORSES WILL NOT BE ALLOWED ENTRY UNLESS AN IMPORT PERMIT HAS BEEN ISSUED
AND THE RELEVANT HEALTH CERTIFICATION ISSUED.**

NOTE: EU horses will normally travel to the UAE on permanent entry certification. Following the standard post import quarantine period they will then either remain in the isolation premises or, if the connections wish, be allowed to enter the UAE equine population and will be free to move freely within the UAE.

If they are in the UAE for AT LEAST 40 days they would be eligible to be moved to other GCC countries for competition and return to the UAE using the multi movement certificate at Annex 1.

4. Horses may only come for nominated competitions and may only remain in the U.A.E. for a maximum of **90** days, unless prior approval is given for this period to be extended.

During its time in the UAE the horse will be held in approved isolation* premises, except when competing in the nominated events. The horses may be subjected to further tests at the discretion of the Ministry of Environment.

* Except EU horses travelling on permanent entry certification – see above

Should the horse fail any of the tests, or fail to comply with the conditions of import or have incomplete health certificates it may be required to be re-exported at the owner's expense, or destroyed

All horses, arriving by air, must arrive at one of the approved International Airports Dubai, Abu Dhabi, Sharjah, unless special authority is granted for landing elsewhere

Horses coming by road must enter the UAE at either the Al Ghuweifat (Silah) border post (Kingdom of Saudi Arabia border) or the Hatta border post (Oman border).

Horses traveling for more than 6 hours (stable to stable) must arrive 48 hours before the trot up for competitions to allow the horses time to rest and recover from the journey. It also allows the SVS time to monitor the horse to ensure it is healthy and does not pose a risk to other competitor's horses.

RETURN

GCC horses - will return to their country of origin or another GCC country using the certificate they arrive with - see Annex 1.

North African horses - will return without further quarantine and testing on certification agreed with the Veterinary Authorities in the country of origin.

EU horses - the return of these horses depends on how long they have been out of the EU and whether or not they remained separated from non EU horses whilst out of the EU.

If they remain separated, except during competition, and they are out of the EU for less than 30 days they can return on agreed return certification without additional isolation or testing.

If they are in the UAE for more than 30 days and/or leave the isolation premises and mix freely with local horses they will be considered permanent exports by the EU and will have to meet either EU permanent entry or EU temporary entry conditions.

EU permanent entry conditions require horses to have been in the UAE and/or the EU (but not other GCC countries) for the 3 months prior to export and that they have been held in isolation for 30 days immediately prior to export (no competition or mixing with local horses is allowed during this period) and have been tested for a number of diseases.

EU Temporary entry conditions require that the horses have been in the UAE and/or the EU for 40 days prior to export and, during the time in the UAE, they have been held in designated stables under veterinary supervision. They may compete during this 40 days and may mix freely with local horses.

However, connections should be aware that horses imported into the EU on temporary certification may only remain there for a maximum of 90 days and a declaration acknowledging this must be signed by the agent/owner prior to the health certificate being issued.

Note: not all UAE stables qualify as “designated stables” - The ERA Veterinary Quarantine Department can advise on this.

In order to ensure that health certification is provided in a timely manner horse connections must inform the Designated Agent of their intended departure date at least 5 days in advance.

As with Imports the ERA Veterinary Quarantine Office cannot guarantee getting health certificates prepared in time if applications are made less than 5 working days before the intended date of export. Late applications will again be charged a late fee of 300 AED per horse.

FEES

There are two sets of fees,

Ministry of Environment and Water fees – to be paid directly to the Ministry.

- Import permit issuing fee - **500 AED** per horse – to be paid prior to the permit being issued
- Border import point (BIP) release fee - **1,000 AED** per horse – to be paid at the BIP
- Export health certificate issuing fee- **400 AED** per horse - to be paid prior to issuing of a return health certificate

ERA Veterinary Quarantine Office fees - to be paid to the ERA - Invoices will be issued to the Designated Agent.

Import permit preparation fee -	375 AED per horse
Export health certificate preparation fee -	400 AED per horse
Post arrival blood sampling fee -	40 AED per horse
Monitoring Veterinary officer fee - (for regular official checks of imported horses during the time the horse is in isolation facilities in the UAE.)	400 AED per horse
Late application/urgent fee -	300 AED per horse (where applicable)

2. RESULTS

In order to proceed with the results publication and for qualification purposes the FEI requires results **to be uploaded directly on the FEI Database** within five days after the conclusion of the event.

All relevant information, file format and tutorial can be found on this page:

<http://www.fei.org/fei/your-role/organisers/xml-format>

If you or your provider are unable to produce the required files, results will be accepted by e-mail to results@fei.org, in the proper Excel or "XML" format immediately after the event. Please refer to compulsory format for CSIs/CSIOs/Championships and Games; the file can be downloaded using the following link:

<http://www.fei.org/fei/your-role/organisers/jumping/results-forms>

All results must include FEI Passport Registration number of horses and FEI ID number of Riders.

Please note that as per Art. 109.6 (GR): OCs of International Events must inform the FEI and NFs whose teams or individuals have taken part, of the results and prize money paid to each placed Athlete and team, within five (5) days following the Event, unless otherwise specified for qualification and ranking reasons as communicated by the FEI. Failure from OCs of International Events to provide the FEI with the appropriate result(s) and/or prize money information by the aforesaid deadline and/or in the aforesaid format shall entail a warning for the first violation and thereafter a fine of CHF 1'000.- per violation.

**THE APPENDIX (8 PAGES) IS PART OF THIS APPROVED AND SIGNED SCHEDULE AND MUST BE
DISTRIBUTED TO ALL OFFICIALS AND NFs AND IS AVAILABLE TO OTHERS UPON REQUEST**
